

# Job Tracking

**Powerful Job Tracking Now at Great Savings!**  
(Millennium/Legacy Upgrade to Existing Estimating System)

## Instantly Know the Location of Every Job in Your Plant!

**Morning Status Reports:** Can you imagine the benefits of having such a system in your plant? Each CSR arrives with a complete printout of every job, where it is in the plant, whether it is ready for shipping, delivery or pickup, even the Completion Percentage!

**CSR's:** Your CSR's will increase their productivity and will feel more relaxed, create a friendlier customer/CSR experience and provide greater efficiency in the workplace.

**Order Today:** Go to our website today to place your order. Even our smallest program at \$675 will reap huge rewards every day, but for the most remarkable productivity you can ever imagine, consider obtaining the Platinum System at only \$1095 plus your wireless Bluetooth scanner at only \$375! Additional Workstation Licenses at only \$275 each.

The RoV Bluetooth Barcode Scanner is a handheld device using a red laser scan activated by the push of a button on the front face of the unit. It is 99.99% accurate and easy to use. And best of all, data is transferred to JobTrack at using modern, Bluetooth wireless technology.

Order your Platinum JobTrack system today and receive an Inventory/Stock or Employee Time Card Upgrade Free!!
